- Implemented hygiene and safety protocols.

</> PROJECT EXPERIENCE

Tutor Trackr (Web Platform Development Project) Sep. 2023 – Dec. 2023

- **Purpose:** Developed “Tutor Trackr,” a platform for connecting students and tutors.
- **Functionalities:** Implemented user roles, profile management, and scheduling functions, with a responsive design for optimal user experience across various devices.
- **Tech-Stack:** Utilized Next.js, TypeScript, Tailwind CSS, GraphQL, and Apollo Server.
- **Testing:** Conducted comprehensive UI testing using Cypress and component testing using JavaScript, ensuring high-quality user interface and reliable component functionality.
- **Outcomes:** Delivered a well-documented and responsive web application.
- **Link:** tutor_management_platform

Global Pay Website (Group Project)

May. 2023 – Aug. 2023

- **Purpose:** Played a significant role in the development of "Global Pay," focusing on user experience and interface design, including the implementation of Figma designs.
- **Functionalities:** Enhanced website responsiveness and user interaction, with features for secure online transactions and user account management.
- **Tech-Stack:** Built with Next.js, JavaScript, Tailwind CSS, and REST API.
- **Outcomes:** Successfully launched a user-friendly and efficient online payment platform.
- **Link:** global-pay.com.au

Personal Portfolio Website

2023

- **Purpose:** Created a personal portfolio website to showcase projects and technical skills.
- **Functionalities:** Featured a user-friendly interface with responsive design for seamless browsing on various devices.
- **Tech-Stack:** Developed using Next.js, TypeScript, and Tailwind CSS.
- **Outcomes:** Established an online presence, demonstrating web development expertise.
